### SHIP-BUILDING RECORD BROKEN BY U. S. YARDS

75 Vessels Completed in September for Shipping Board.

The United States has broken the record for monthly production of ships, according to figures made public last night by Chairman Hurley, of the Shipping Board.

During the month of September, seventy-five vessels were completed in this country and one in Japan for delivery to the United States Shipping Board. This addition to our merchant marine represents a total dead weight tonnage of 269,320. The previous high water mark in deliveries of completed vessels was reached in August, when 68,212 dead weight tons of new shipping were turned over by the builders. The September record exceeds the August figure by 30,078 tons.

### SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost every one knows that Sage and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't say "Try it." No one can possibly tell you that the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Keep your hair healthy, rich and glossy.

### BEN RUBIN IN CUSTODY AGAIN

Convict Figuring in Roy Case Caught After Chase.

Ben Rubin, after escaping from the Fairfax County Jail and successfully eluding the authorities for two days, was captured by the local police yesterday afternoon. Rubin recently "confessed" the murder of Roy, later repudiating his statement.

Rubin was buying a pistol in a store on the corner of Tenth and D streets northwest, when F. W. Miller, of the Lorton Reformatory, saw him. Rubin saw Miller about the same time Miller recognized him, and fled before the Lorton officer could seize him. J. E. Bobo, a bicycle officer, joined in the pursuit and chased Rubin into a house on Tenth street. The fugitive went to the upper story of the house, doubtless hoping to escape through the roof. The officer, however, caught him before he could make good his get-away, and took him to No. 1 precinct.

Was in Sullen Mood.

Later in the afternoon, Rubin was taken to headquarters and thoroughly questioned by the detectives. The prisoner, however, took refuge in sullen silence, and refused to make any statement in regard to his escape.

He declared that he had the saw with which he cut his way to freedom in his possession. He was taken from Washington, where he was recently, the police authorities, however, believe this to be a lie, as the man was thoroughly searched after his first arrest in Washington, and after his arrival in Fairfax.

The prisoner denied having a revolver at the time of his escape from the Fairfax Jail, a statement apparently borne out by the fact that he was in the act of purchasing one when arrested. He says that the Haas girl, who told the authorities that he held a revolver in his hands as he ran past her cell, "told a lie."

Rubin refused to tell when he arrived in Washington. The authorities, however, after a search of last night, and had been in hiding until he went out to secure a pistol.

When asked by the detectives why he had "confessed" to the Roy murder, Rubin said that it was because he thought it would be easier to escape from the Fairfax county Jail than to elude the local authorities.

Rubin said that he had no connection with the crime, and that he had never heard of it until recently.

Rubin said that while in the Fairfax Jail he had received a package of food from the married daughter of Peter Roy, father of the murdered girl. The only package he received while there.

The Fairfax officers will make an attempt to have Rubin returned to their custody in order to discover who sent him the saw.

### ALEXANDRIA

THE HERALD BUREAU, A. S. Loup, Alexandria, Va., Oct. 8.—Spanish flu was responsible for the lack of a quorum at the meeting of City Council tonight. Only eight of the sixteen "city fathers" put in their appearance, which is one shy of the required quorum number.

The eight adjourned over until 7:30 tomorrow (Wednesday) night, when another effort will be made to get a quorum.

The board of aldermen, however, had a quorum and took from the table the proposition to move at Jett line from King and Pitt streets to Friendship alley in the rear of King and Alfred streets. This line overlies between this city and Camp Humphreys. The aldermen after debating the question, decided to have F. F. Marbury, president of that body, confer with the military police on the matter.

The aldermen adopted the report of the finance committee, which authorizes the borrowing of \$75,000 as a temporary loan. This was practically all of the business presented to the aldermen for its consideration.

According to Dr. W. L. Wood, special state health officer, and also of the United States Public Health Service, Spanish influenza here is on the decline. Dr. Wood recommends private citizens to keep their homes and places of business clean and also recommends the enforcement of the law against expectorating on sidewalks which he says will greatly lessen the spread of the disease.

A house to house canvass in the interest of the sale of liberty bonds may be made Sunday. This will be determined by the executive committee of the committee to meet which was held at 11 o'clock Wednesday morning in the rooms of the Chamber of Commerce.

Ministers of the different churches today met the committee and sent out personal letters to all of their parishioners urging them to purchase the bonds. It is believed that this will result in largely increasing the sales.

The big three-story brick lodging house at the northwest corner of Royal and Cameron streets, was today offered to Dr. W. L. Wood for use as a base hospital at that camp. They are: Mrs. Percy Evans, Mrs. A. R. Pease, Miss Mary Baker, Mrs. A. F. C. Randolph, Mrs. Howard Baker, Miss Jessie Callahan, Mrs. J. T. Johnson, Miss Cora Cochran and Mrs. Sinclair.

An appeal has been issued for nurses and others desiring to volunteer to meet tomorrow morning at 10 o'clock in the rooms of the Chamber of Commerce.

Arthur D. Grimes, a well-known tailor, 38 years old, who conducted a tailoring establishment at 614 King street, died this afternoon at his residence, 1827 Duke street, following a short illness of pneumonia. He is survived by his wife, mother, two sisters and two brothers.

The deceased was the son of the late Robert Grimes. He was a member of Andrew Jackson Lodge, No. 120, F. A. M., and Seminoles Tribe No. 35, Improved Order of Red Men. For 20 years he was in the employ of the Reliance Fire Engine Company.

The Sunday school parade scheduled to be held Sunday afternoon has been indefinitely postponed owing to the epidemic of Spanish influenza.

Algernon Chalmers has recalled the invitation to the marriage of his sister, Mrs. William Bryant at Paul's Bryant, Jr., to be held at St. Paul's.

Universities in Italy are instituting courses in English and French language and literature.

Weddings and Receptions.

Consult Gude about the flowers and floral decorations. 1214 F. St. Adv.

### Hints for Curbing Influenza If a Doctor Is Not Available

An emergency Spanish influenza prescription for an adult, suitable for the visit of a doctor, is given by a prominent physician, as follows:

- Calomel ..... 12 grains  
Citrate of caffeine ..... 12 grains  
Hexamethylamine ..... 24 grains  
Aspirin ..... 24 grains  
Quinine Muriate ..... 12 grains

The foregoing quantity is sufficient for twelve capsules. One should be given every two or three hours.

A few simple comfort measures can be given by the home nurse. If possible the patient should be in a bright, well-ventilated room, with wide-opened windows, but well out of a draft. A sponge bath, followed by an alcohol rub, is soothing to the sufferer. An ice pack at the head has been found to be valuable in relieving a patient's headache.

Every effort should be made to obtain the services of a qualified physician.

### Market Tips for Housewives.

Prices to retailers and general market information furnished by Bureau of Markets, United States Department of Agriculture; fair prices to consumers, by the District food administration.

**ABUNDANT**—String beans, peppers, cabbage, potatoes, apples, onions, sweet potatoes, turnips, beets, eggplant, lemons, cantaloupes, kumquats, lettuce, spinach.

**NORMAL**—Lima beans, tomatoes, sweet corn, carrots, squash, pumpkin, grapefruit, peaches.

**SCARCE**—Oyster plump, parsnips, cucumbers, bananas, grapes, oranges, grapefruit, peaches.

**PLENTY OF FRUITS AND VEGETABLES AT REASONABLE PRICES.**

The supply of fruits and vegetables at the Haskell Farmers' Market was large enough to take care of the demand, which was somewhat higher than it has been for several days. It is believed that the epidemic that is so widely prevalent has had the effect of reducing the demand for products of this character. Several authorities have advanced the theory that the old-fashioned boiled dinner of the most healthful forms in which food can be eaten during these trying times. They certainly offer the necessary nourishment and afford an opportunity to reduce to a minimum the amount of the higher priced meats required to prepare a well-balanced meal.

A number of the vegetables that are used in the composition of these dinners are available, among which are string beans, spinach, kale, cabbage, onions, beets, squash, potatoes and turnips, all of which are plentiful and cheap.

**SWEET POTATOES CHEAPER.**

The supply of native sweet potatoes has become larger, and prices have declined. The fancy, well-grained "sweets" are costing retailers from \$4.00 to \$4.75 per barrel, which is at the rate of 10 to 12 cents a quarter peck, and at the selling price of 12 to 16 cents a quarter peck that offer to consumers a cheap and nutritious article of food. The smaller, second grades are retailing for 6 to 9 cents a quarter peck, and are especially desirable for use in the making of pies.

Both "cash-and-carry" and "credit-and-delivery" retailers, "cash-and-carry" retailers should sell near the lowest figure given. Unless otherwise stated, all prices are for products of good average quality. Poorer grades should sell for less.

If consumers are charged, on any day, prices in excess of those published on that day in the "fair-price-to-consumers" column, they should immediately bring the matter to the attention of the agent of the District Food Administration, office 264, E street wing, Center Market.

### NAVIES READY FOR HUN SALLY

Daniels and Geddes Confer on Steps to Meet Any Move by Foe.

The destruction of the last German submarine in operation and a complete preparation against the enemy's expected suicide hope dash to sea of the German high seas fleet are the prime objects of the conferences being held here between Secretary of the Navy Daniels and the naval experts and Mr. Eric Geddes, of the complete staff he has brought with him to Washington.

The conferences as announced began yesterday afternoon and were continued until late in the afternoon at the new Navy Building. The most important of these was that which Secretary Daniels, Mr. Eric and Admiral William Benson, Chief of Operations, U. S. N., held for two hours early yesterday. In the office of Admiral Benson, following this talk, conferences were held with every sea officer who has anything to do in an administrative capacity with operations against the enemy.

It is believed here that both the United States and Great Britain knew what was going on in the Vienna and Berlin cabinets before Mr. Eric Geddes came to the United States, and that there was going on before his arrival timely preparation for any sudden insane acts of the German fleet. Officials, therefore, were enabled to say yesterday with assurance that "The allies were safe against the emergence of the German fleet two weeks ago."

**Offset Ships from Baltic.**

This assurance is even based on the knowledge that Germany has been able to add to her fleet some of the destroyers, submarines and cruisers of the Russian Baltic fleet. Since that accession, however, the allies have also been busy and have met the new conditions as to relative naval power.

It was stated yesterday that if the German fleet came out not one ship would ever get back home. One of the conferences said on this point: "The enemy fleet must either fight as one armada against another and settle the naval supremacy of the world, or it must fight and have its scattered units roam the North Sea and the Atlantic until they are struck or been sent to the bottom."

### HUN PRISON CRUELTY AROUSES BELGIUM

Belgian officials ask that measures of retaliation be taken against German prisoners of note in order to force Germany to stop the cruelties of humanity in their treatment of those in their power.

The Belgians have been particularly annoyed by the report that Burmann, a Belgian officer, who is very ill, is still being treated with the utmost severity by the German authorities, who hope to break down his indomitable courage. Unless intervention in some form takes place, the life of the valiant Brussels patriot is in grave danger.

### Departments Must Not Lift Keymen from Companies

President Wilson has warned heads of government departments that they may not take telephone operators from the employment of the companies, now operated by the government, for use on their private wires without the consent of the superintendent of the companies. The telephone companies in some parts of the country are without adequate crews to man their wires because of the governmental requirements here and abroad.

### NEW YORK HOTEL ARRIVALS.

New York, Oct. 8.—The following Washingtonians are registered at local hotels:

A. W. Briggs, Woodward; Mrs. W. E. Charlott, Webster; H. E. Gilmer, Monticello; C. C. Hagenbush, Somerset; W. J. Harlow, Wallack; M. H. Barnum, Herald Square; Lieut. E. M. Caldwell, Navarre; Mrs. L. A. Fuller, Grand; L. S. Hawkins, Hermitage; C. A. Henne, Grosvenor; G. L. Hills, Collingwood; R. D. Ivey, Grosvenor; J. Kramer, Grand; David Levy, Woodward; H. C. MacAdams, Grand; H. F. Miller, Collingwood; F. Morrison, Continental; Lieut. H. R. Taylor, Ritz-Carlton; J. J. Rooney, Woodward; W. B. Smith, Marlborough; Mrs. W. Toote, Collingwood; G. H. Winslow, Marlborough.

### WEATHER CONDITIONS.

District of Columbia, Maryland and Virginia—Fair and warmer Wednesday. Thursday partly cloudy; gentle westerly winds.

### GENERAL FORECAST.

The cyclonic depression of Monday evening north of Montana is passing northeastward over Hudson Bay, and will reach the Great Lakes region by Wednesday. Light rains have fallen in the Lake region, and locally in the middle Mississippi Valley, Eastern Texas, Louisiana and Southern Mississippi. There has been a general reaction to higher temperatures in the Ohio Valley, the Lake region and the extreme Northwest.

Fair weather is indicated for the next 48 hours in the Washington forecast district, except that showers are probable along the Gulf coast and in the Lake Superior region. Temperature will rise slowly in Atlantic Coast districts and the Lake region.
